

**IN THE SPECIFICATION:**

Please amend the Specification as follows.

Page 6, please replace the paragraph beginning on line 6 with the following:

The flat sheet 211 of the support piece 21 is engaged with the first recess portion 203a of the inclined plane portion 203, and the ~~second~~ first fastening portion ~~213~~ 212 of the support piece 21 is engaged with the second recess portion 203b of the inclined plane portion 203. As a result, when the golf bag is supported up at a tilt, the flat sheet 211 and the second fastening portion 213 are accommodated and held in position by the inclined plane portion 203, so as to allow firm and balanced contact between the support piece 21 and a plane where the golf bag is situated, such that the golf bag is can be secured in the tilt position, and a user can remove the golf clubs (not shown) easily from the bag body

18.
